To all of Our Members,

The Annual meeting of Mountain Mutual Water Company will take place at Rocky Mountain Chapel on Saturday, March 27, 2010 at 10-11:30am. The chapel is located next door to the MMWC office.

We are inviting you to join us, meet the Board members and our excellent employees as well as participate in the election of new board members and become informed on the accomplishments of the past year.

We will also have available copies of the first ever MMWC Strategic Plan as well as information as it pertains to meter installations and upcoming projects.

Several projects have been accomplished or are nearly completed. The highway bore under Hwy 67, the soft start for the pumps, strategic plan, delinquency collections and the updated engineering report is nearly completed. Your board members have worked very hard and put in many hours outside of the regularly scheduled meeting time. I am very pleased to work with such an outstanding, dedicated and experienced board and group of employees.

Sincerely,

Donna Brazill, President

Board of Directors
