2nd Quarter Newsletter, 2024

This newsletter edition follows the Annual Membership Meeting on March 23rd (the first in-person meeting in four years). While the meeting was lightly attended, those that did received information about the ongoing operations of our water system, the good financial health of the company, and a better idea of the future direction the company is headed to meet its anticipated needs. The Directors were pleased that the tour of the building got praised for its functionality and durability. For those that haven't had the opportunity to see it, here are a few photos to show some interior finishes and furnishes.

Even though winter is still with us, the staff is planning the work for upgrading and repairing distribution piping needs. What this will mean for you is a disruption in traffic flow on the roads where new pipe is being installed or repairs are being made. PLEASE pay attention to warning signs and drive *CAUTIOUSLY* on the roads where the work is being done. The safety of our employees is important, and we ask for your consideration as well.

As always, we want to thank our members for their continued support as we move forward into the coming Spring season.
